---------------------	---	---

Additional information:

- Approximately 1000 students are provided summer work opportunities each year.
- Students can submit one or multiple application forms depending on their interests, qualifications, and experience, and will receive a confirmation email once each application form is submitted.
- As a summer student job becomes available, the hiring manager submits a request for students to the Summer Student Program Coordinator. The Summer Student Program Coordinator searches the central database for students who match the position's requirements and refers them to the hiring manager for consideration.
- Managers only contact those students they wish to interview/assess. Due to the volume of students who apply, not all students can be contacted.

Eligibility

To be eligible for the Summer Student Program, you must meet one of the following criteria:

- Attending school on a full-time basis, and returning to school on a full-time basis in the next academic semester;
- Attending full-time academic studies and will graduate in the current academic year; or
- Have recently graduated from full-time studies within the last year.
